# THE TRANSPORT TECHNOLOGY SHOW

NATRANS Arabia is a highly focused technology event where the public and private sector come together to plan and implement the future of transport networks.

Running from 25 – 27 October at the Abu Dhabi National Exhibition Centre (ADNEC), the show is officially supported by Federal Transport Authority – Land and Maritime.

NATRANS Arabia will welcome key decision makers from every aspect of national and regional transport infrastructure planning, development, maintenance, preservation and future system upgrades for multi-billion dollar road, rail and maritime projects.

The Arab Union of Land Transport (AULT) vision of linking vast road networks and rail projects is deemed vital for the safe and efficient movement of both people and goods across national borders. As one of the biggest transport integration undertakings anywhere in the world, new technologies and international best practices are at the forefront of AULTs vision.

## Why NATRANS Arabia

NATRANS Arabia will bring together thousands of the world's leading transportation experts under one roof. The event will discuss and showcase proven, deployed schemes, pioneering research and development solutions that are intended to solve real world problems.
