Previous Review

As the largest international exhibition for valves, pumps and pipes in China, FLOWEX CHINA 2015, after three sessions of lasting grandeur, also witnessed huge success on June 10-12, 2015. With coverage of 35,000 square meters in the world's largest venue, namely National (Shanghai) Center for Exhibition and Convention, FLOWEX CHINA 2015, embraced its spectacular arrays of 550 international exhibitors and over 30,000 professional visitors at home and abroad. And more than 20,000 exhibits concerning petrochemical industry, water treatment and the like were on display. Noticeably, the proportion of internationalization saw a remarkable increase of 35%.

Apart from that, the eighth session of AQUATECH CHINA, one forerunner within water industry, were concurrently held at the same venue.

Target Visitors

Comments by Exhibitors & Buyers

As a long-term exhibitor of FLOWEX CHINA, we always find it appealing to be a member of such a professional trade show. Actually we never hesitate to enlarge our booth space every year and these farsighted decisions were proved fairly profitable.

— Grundfos

FLOWEX CHINA 2015, in terms of its scale and exhibitors, should be a real sensational event. The purpose of us visiting was to purchase some pump equipments for our new projects. We met and negotiated with some exhibitors. And we successfully found our suppliers.

— SINOPEC

Your Best Decision to Exhibit with Us

Immense Chinese Market

Compared with western countries like America and Germany whose fluid industries have entered a flat stage in recent years, Chinese market, benefiting from a surge of economic production in the past decade, starts to be embedded with mounts of business seeds.

1 Market Share in next 5 years

Countries	Market Share (USD)
America	85 billion
Germany	48 billion
Japan	53 billion
China	107 billion

Coverage

Valves, Pumps, Pipes

2 Huge Potential for Valve & Pump Manufacturing in China

Chinese Exporting Market soaring

Refined Manufactures within the Industry of Vales & Pumps

Sunrise Industry

⑥ The Largest Show Venue in The World

FLOWEX CHINA 2016 will be held in the newly built, National (Shanghai) Center for Exhibition and Convention. The Exhibition Complex is projected to edge itself as the world's largest and most competitive MICE venue of our age, with half million square meters of exhibition space consisting of 400,000 square meters of indoors and 100,000 square meters of outdoors. The National Center, based in the booming Yangtze River Delta region, aims to serve China and the world with its cutting-edge design and multiple facilities.

⑥ Perfect Matches for International Exhibitors

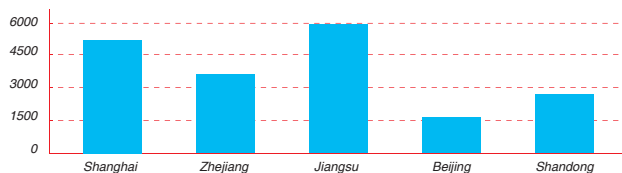

During the period of FLOWEX CHINA 2015, we set up an exclusive VIP lounge for International exhibitors to make one-on-one matches with our commercial circles.

⑥ Chemical Section of FLOWEX CHINA 2016 Features

Given the fact that many of products our exhibitors manufacture are applied to the industry of Fundamental Chemistry, Fine Chemistry, and Petrochemicals, FLOWEX CHINA 2016 is dedicated itself to laying out the chemical section for a solid platform for exhibitors to connect with buyers interested in purchasing chemical equipments in bulks.

Apart from Chemical Database, FLOWEX CHINA has set a long term collaboration with some Chemical Associations.

One-on-One Chemical Matches

In recent months, FlowEx Team has paid a visit to well known enterprises within chemical industry, such as Wison Engineering Service, BASF, LANXESS, Transfer Group, etc. Many of purchasing key-figures from those enterprises advocate that they will opt for some suppliers at FLOWEX CHINA 2016 if possible. Additionally, FlowEx has already established a strategic cooperation with Nanjing Chemical Park on VIP Chemical Buyers. At that time, some of chemical enterprises, such as Kemira, H.B.FULLER, Celanese, Soken, etc, will be coming to this spectacular trade show.

Chemical Enterprises

Soken Celanese BASF Sinopec Transfer Group

Association Partnership

- Shanghai Chemical Industry Association
- Hangzhou Petrochemical Industry Association
- Ningbo Petrochemical Industry Association
- Wuxi Petrochemical Industry Association
- Shanghai Daily Chemistry Trade Association

The list of Vip Chemical Buyers

- Chemical Engineering
- China Tianchen Engineering
- Wison Engineering
- Bayer Technology Services
- China HuanQiu Contracting & Engineering

Chemical Designing Institute

- Shanghai Chemical Designing Institute
- Shanghai Chemical Engineering Institute
- Nanhua Designing Institute
- Tianjing Chemical Designing Institute

⑥ Our Long-term International Distinguished Exhibitors

Valve / Actuator

EMERSON	BRAY
DANFOSS	TTV
BERMAD	LESER
