Connecting the healthcare community in the Americas

The Florida International Medical Expo (FIME) hosted its 32nd edition live, in-person from July 27-29, 2022, and online from July 11 - August 29, 2022.

The event attracted 10,445 healthcare professionals from 106 nations. Over 860+ exhibitors showcased more than 2,900 healthcare products bringing business opportunities, innovation and technology and uniting the healthcare world under one roof.

FIME presented the Transformation Zone for the first time, a successful feature meticulously designed to provide high-quality knowledge delivered by industry leaders, visionaries, healthcare professionals, and disruptors.

We were proud to help healthcare professionals boost their businesses through the unmatched power of face-to-face networking, live showcasing, and conference attendance. Our success was based on our ability to gather the health care world in Miami Beach to showcase the world's most cutting edge, transformative technology. We greatly look forward to further exceeding our attendees' and exhibitors' expectations at next year's conference.
