# ABOUT THE CONGRESS

A key element to the event is the Global Health Exhibition congress which aims to explore the Vision 2030 and the immense opportunities it represents for healthcare advancements in Saudi Arabia.

From digital healthcare transformation to impactful change at the public health and policy level, the congress aims to optimise and better utilise the capacity of hospitals and health care centres, and enhance the quality of preventive and therapeutic health care services.

The conferences will attract senior government officials, leaders of healthcare facilities and healthcare professionals across the country.
